Work the Vote

"Every vote counts and so does your help!"

We all know we can do our part as citizens by voting or helping someone campaign (or running for office!) but there’s another way you can help – and it’s fun! Help the Office of Elections conduct our upcoming primary and general elections.

Whether it's working at a polling place or transporting ballots, help is needed.

You can volunteer for the Primary Election, Saturday, August 11th, and/or the General Election on Tuesday, November 6th.

For each election, approximately 3,600 volunteers are needed to operate the polling places, staff delivery and collection teams, and serve as control center operators.

You actually don’t even have to be old enough to vote to help out –

**Minimum qualifications**

- Be at least 16 years of age on or before June 30, 2012
- Be a registered or pre registered voter in the State of Hawaii
- Be able to read and write English.

(continued on page 2)
Volunteering for elections is a great way to serve your community, take an active role in democracy, and become part of the team working to make the election process easy and accessible to everyone.

There are some caveats, of course. You cannot volunteer if you are candidate yourself, or the parent, spouse, reciprocal beneficiary, child or sibling of someone who is. More information is available on the Office of Elections website (www.hawaii.gov/elections).

Volunteers are needed for a variety of positions.

Precinct Officials are most in demand. Help at your local polling place to ensure a smooth and fair election. You will assist voters with normal and special voting procedures, help to secure ballots, process election documents, and monitor the precinct counter.

There’s also a need for Counting Center Officials; they inspect and prepare ballots before tabulations, process and tabulate voted ballots, and conduct post-election audits. Delivery & Collection Team Officials are needed too. They deliver ballots and sensitive election materials to the polling places on election morning and collect all voted ballots and all sensitive election materials after the polls have closed on Election Day.

Elections also require Control Center Operators, who respond to telephone inquiries and requests from polling places using a computer-based call center system. And then there are Facility Officials, who set up election equipment at polling places on election eves, provide access to polling places on Election Day, and disassemble and store the election equipment after the polls close on Election Day.

Whatever volunteer position you find yourself in, rest assured that you’ll be trained. That’s a requirement.

Did we mention that you also get paid? The pay and hours vary depending on your position. Are you part of a group that needs to do fundraising? Your entire group could work the elections and pool your election pay! Ask the contacts below for more information.

What could be better? You learn about the electoral process. You connect with others. You help democracy function. Help work the vote this year!

Get to Know Your Deadlines:
Post-Session

If a bill was enrolled to the Governor before the last 10 days of session, you already know its fate, because it had to be acted upon before the end of session. But if the bill was enrolled to the Governor in the last 10 days of session, there may still be some waiting to do.

Notice of Intent to Veto Deadline
If the Governor has any intention of vetoing a bill, he must inform the Legislature of his intent by the 35th day after adjournment sine die. This year, that's June 25th. If a bill appears on this list, it does not necessarily mean that it will be vetoed, only that it may be vetoed. If a bill does not appear on this list, you can pretty much count on it becoming law – either through the Governor's signature or without signature by the 45th day after adjournment.

Veto Deadline
The Governor has until July 10th this year – the 45th day after adjournment sine die – to veto bills that were on his intent to veto list. If he chooses not to veto it, it becomes law without his signature. Any bill not signed or vetoed by this date becomes law without the Governor's signature.

Special Session
If a bill is vetoed, there's still a chance for it to become law. The Legislature has until 12 noon on the 45th day (again, July 10th this year) to convene in Special Session to override a veto. To successfully override a veto, 2/3 of the members of each chamber must vote in favor of the veto override. If the override fails in either chamber, the veto stands and the bill does not become law.

Regular Session of the 27th Legislature
The third Wednesday in January – January 16, 2013 – will mark the start of the next Regular Session of the Hawaii State Legislature.
